CUBAN RACES' OPEN SUNDAY.

Many of the Cars That Participated on the
Ormond-Daytona Beach Will Race

on Cuban Soil.

In view of the accident-prone nature of the Cuban roads, and the nature of races that begin this Sunday, and likely the leaves of the speeded up racing their way to classified Havana.

The interest in the race for the Cuban is typified by the Missions General of Havana. The first tournament, held last year, resulted in the racing held on the island by a Cuban team, and this year an American team is being made to keep it.

The course for the big race will be the same that was used last year, from Cienfuegos, just outside of the Havana limits to San Cristobal, a dis-

tance of fifty-seven miles. This would make 220 miles of racing, or twice the distance of the regular roads in the world. It has not yet been decided whether or not the full distance of 220 miles will be run, or if the race will be divided into two parts, each of 110 miles.

This will be a 20-mile race for the Peninsular Cup.

Victor Dusmet, Speed King of the World, sailed from Miami last Saturday.

THE PRICE OF LIGHTS REDUCED

Electric Light Company Lowers the Rate From 20 Cents to 15 Cents per Thousand Watts.

General Manager H. Gove, of the Electric Light Company, was a caller at the office of the Standard Oil Company yesterday and has announced that reduced the price of the electric lights from twenty to fifteen cents per one thousand watts, and that the new rate went into effect Friday morning.

Mr. Gove said that there had been a great deal of talk to the press that had previously charged for electricity, and that thought his company could

justify the reduction in the price of the electric lights.

Recently, the Electric Light Company completed improvements to their plant to the cost of about \$20,000, and the system is working in a much more safe manner than ever before.

Jones-Brown.

Mrs. Eugene Jones-Brown, a widow of Atlanta, Ga., who has spent much of her life in Daytona, has found a face of stone in a rock which she purchased recently.

Mrs. Jones-Brown is a very interesting person to meet, being the owner of a house and lot on the corner of Main and Orange streets.

She is a widow, and was married to a doctor and was separated and divorced about six years ago.

This is another instance which has been on the air that the stone, which she found in a rock, was in her possession some eight years before she discovered the face.

She has talked with many persons in Atlanta, and, perhaps, compared the stone with others, and still does not know what it is.

She has given the stone to a friend, and he has it in his possession.

It is a face of stone, and is very

The Firm will be The Hendricks Mercantile Company.

Owing to continued ill-health, Mr. A. J. Hendricks has sold a portion of his business to F. M. Call, who has now taken over the firm's name and is continuing the business of the firm.

The Hendricks Mercantile Company, Mr. Call has been coming to Daytona for several years, and has been here to inspect the business, and he will remain here to closely study the details of the business, and he will spend nearly all his time here.

Mr. Call has large interests in St. Louis.

CUBAN RACES' OPEN SUNDAY.

Many of the Cars That Participated on the Ormond-Daytona Beach Will Race on Cuban Soil.

Devotees of the god-of-go-fast are now turning their attention to Cuba, and the series of races that begin there Sunday, and already the lovers of the speed-test are winding their way to classic old Havana.

The big event is the race for the Municipal Cup, a trophy given by the Municipal Council of Havana. The first tournament, held last year, resulted in the cup being held in the island by a Cuban-owned car, and this year an extra endeavor is being made to keep it there.

The course for the big race will be the same as the that used last year, from Camp Columbia, just outside of the Havana city limits to San Cristobal, a dis-

tance of fifty-seven miles. This would make 228 miles for a race with three turns, over one of the finest roads in the world. It has not yet been decided whether or not the full distance of 228 miles will be used, or the contest made a 200-mile event. This will be decided before the tournament begins.

On February 13 the other races will be run off. They are as follows: One-mile record road race for the E. J. Conill trophy; one kilometre race for the Munson trophy; ten kilometre race for the Ward Line trophy. The concluding event will be a 20-mile race for the Peninsular Cup.

GOOD ROADS THE SLOGAN.

Titusville Star Advocates a Hard Surfaced Road From Jacksonville to Miami.

But Few Missing Links.

A few days ago there were fourteen people who made the trip in an auto from Daytona to New Smyrna and return in a day, leaving Daytona at 10 a.m., the run was made to the Ocean House at New Smyrna, in an hour and a half. The distance is about seventeen miles, and the road (which is a new one) was found in good condition, except a small piece between the tenth and eleventh mile posts, where the recent heavy rains had inundated the roadway and some little delay was experienced here in passing. The return trip in the afternoon was made in an hour and a half.

"We make mention of this trip as only one of many that will be made over the above route this season, and to show to the people of Titusville that such parties

would come also to our town from Daytona, if the little intervening space of road between Mims and Oak Hill was improved and made into a hard road so that the autos could pass over it. Autos can run from Ormond to Oak Hill, a distance of some thirty-two miles. The distance from Mims to Oak Hill is only twelve miles, and it certainly seems that if Brevard will take up the work of continuing the present good road to Mims as far as the county line, that Volusia will be found ready to make the short connecting link from Oak Hill to meet us.

"We offer it as a suggestion that our honorable board of county commissioners appoint a committee to confer with

A Poem for Today

BEAUTY

By John Keats

JOHN KEATS was born in London Oct. 29, 1795, and died in Rome Feb. 23, 1821. Keats has been well called "the popular hero of English literature." The beauty of his verse, his humanity, warmth, tenderness, and humor, are his足以使 all endear him to the reading public. Among the best of his verse are the "Ode to a Grecian Urn," "Ode to a Nightingale," "Lamia," "The Eve of St. Agnes" and "Endymion." The extract given below is from the last named.

A THING OF BEAUTY IS A JOY FOREVER:
ITS LOVELINESS INCREASES; IT WILL NEVER
PASS INTO NOTHINGNESS, BUT STILL WILL KEEP
A BOWER QUIET FOR US, AND A SLEEP
FULL OF SWEET DREAMS, AND HEALTH, AND QUIET BREATHING.
Therefore, on every morrow, are we wrestling
A flowery band to bind us to the earth,
Spite of despondence, of the inhuman death
Of noble nature, of the gloomy days,
Of all the unhealthy and o'erdarkened ways
Made for our searching: yes, in spite of all
Some shape of beauty moves away the pall
From our dark spirits. Such the sun, the moon,
Trees old and young, sprouting a shady bower
For simple sheep; and such are daffodils
With the green world they live in; and clear rills
That for themselves a cooling covert make
Against the hot season; the midforest brake,
Rich with a sprinkling of fair musk rose blooms;
And such, too, is the grandeur of the domes
We have imagined for the mighty dead;
All lovely tales that we have heard or read:
An endless fountain of immortal drink,
Pouring unto us from the heaven's brink.
Nor do we merely feel these essences
For one short hour; no, even as the trees
That whisper round a temple become soon
Dear as the temple's self, so does the moon,
The passion poetry, glories infinite,
Haunt us till they become a cheering light
Unto our souls, and bound to us so fast
That, whether there be shine, or gloom o'ercast,
They always must be with us, or we die.

THE PRICE OF LIGHTS REDUCED

Electric Light Company Lowers the Rate From 20 Cents to 15 Cents Per Thousand Watts.

General Manager S. H. Gove, of the Electric Light Company, was a caller at the Daily News office last night, and informed this paper that his company had reduced the price of the electric lights from twenty to fifteen cents per one thousand watts, and that the new rate went into effect February 1st.

Mr. Gove said that there had been no end of kicks as to the price that had been previously charged for electricity, and that he thought his company could advantageously try the new rate.

Recently, the Electric Light Company completed improvements to their plant to the cost of about \$20,000, and the system is working in a much more satisfactory manner than ever before.

He took with him his two Darraq cars which were driven on the Ormond-Daytona Beach. Demogeot will drive the smaller Darraq car in the long-distance event, and he expects to use the big one for the kilometer trials.

Cedrino and Lancia are both en route to Havana with the Fints.

From all indications the Havana race meet will be a success, attended by large crowds of tourists and automobile enthusiasts.

WONDERFUL STONE HERE.

It Contains Face of Man of Sorrows—Was Found By Mrs. Eugenia Jones-Bacon.

Mrs. Eugene Jones-Bacon, formerly of Atlanta, but who has spent much of her time abroad and has lately returned from Europe, was in Daytona recently. Mrs. Jones-Bacon is a very interesting person to meet, being the owner of a stone that has brought her in close touch with some of the crowned heads of Europe and with savants and scholars galore of this and many foreign countries.

This wonder stone, which has been on exhibit at the Dore Gallery, Bond Street, London, she picked up at Mt. Kopf, while on a visit to Oberammergau to witness the Passion Play in 1880, and it was in her possession some eight years before she discovered the face. It is a small, dun colored stone, not larger than a woman's thumb, perhaps, composed of limestone and chert, so the State geologist of Albany, N. Y., declares, which shows a rough surface, held flat in the hand, but held so that the electric light falls on it from above and at once there is a face in striking resemblance to the Man of Sorrows in his last agony on the cross, his eyes closed and mouth slightly open.

Shift the position a little and the eyes appear to open and the mouth close.

If the stone is held above the light the face instantly disappears. In a magnified photograph the stone has the appearance of a cleft heart.

Mrs. Jones-Bacon has allowed no superstition whatever to attach itself to this wonderful product of nature. She declares it is as much a work of nature as the flowers that bloom, and treasures it as such only. She is a lady of good literary attainment, having written books of the Old South. Recently she has taken a major degree in literature in Chicago, simply for the pleasure of the work.

Hendricks Sells Interest in His Business.—The Firm will be The Hendricks Mercantile Company.

Owing to continued ill-health, J. A. Hendricks has sold a portion of his business to F. M. Call, of St. Louis, Mo., and in the future the name of the firm will be The Hendricks Mercantile Company.

Mr. Call has been coming to Daytona for seven or eight seasons, and in the future he intends to look closely after the details of the business and he will spend nearly all his time here. Mr. Call also has large interests in St. Louis.

For some time past large quantities of new goods have been arriving, and when the firm opens up for business in their handsome and commodious new store, they will have one of the most complete stock of goods in the State.

Not Like Other Girls.

W. Lang Cheves, of Palatka, was in the city Tuesday on business.

Miss Kee Nan, while at Pittsburg, during her engagement there, spoke of her visit to Italy, and of theatrical things in that sunny clime. The Italian actors are many, and some of them are excellent. Their work is one of the most laborious kind. The program is changed every night, or every alternate night, and it is no unusual thing for a company to perform forty or fifty dramas in a short season. As a result, the prompter is, of course, a very prominent performer at every play. How different from our own theaters. He sits in a hooded box on the edge of the auditorium, and his voice is heard as a drumming undertone through every speech that is spoken on the stage. The quickness of the Italian intellect is strikingly exhibited in the facility with which the actors follow the voice that comes up from their very feet. It is a bad condition of things, and very disturbing to an audience, but forced upon the managers by the necessity of frequent changes. The actor's profession is not a good one in Italy from any point, but the artistic one, and even then, it is hampered by grievous disadvantages.

The fields forget the battles fought,
The trenches wave in golden grain,
Shall we neglect the lessons taught?
And tear the wounds agape again?

Sweet Mother Nature, nurse the land,
And heal her wounds with gentle hand.

Lo, peace on earth! Lo, flock and fold!

Lo, rich abundance, fat increase,

And valleys clad in sheen of gold!

Oh, rise and sing a song of peace!

For These rooms the land no more,

And Janus rests with rusted door.

A Poem for Today

THE PEOPLE'S SONG OF PEACE

By Josquin Miller

THESE verses form the "Song of the Centennial," written for the Philadelphia exposition of 1876. Theseus, a famous warrior, was king of Athens. He is the hero of many adventures. Janus was a god of the Romans. He is generally represented as having two faces, one looking forward, the other backward. His temple, which was always open in time of war, was shut only three times in 700 years, the Romans being at war nearly all that long period.

THE grass is green on Bunker Hill,
The waters sweet in Brandywine;
The sword sleeps in the scabbard still;
The farmer keeps his flock and vine.
Then who would mar the scene today
With vault of battlefield or fray?

The brave corn lifts its regiments
Ten thousand sabers in the sun;
The ricks replace the battle tents,
The bannered tassels toss and run,
The neighing steed, the bugle's blast—
These but stories of the past.

The earth has healed her wounded breast,
The cannons plow the field no more;

The heroes rest! Oh, let them rest!

In peace along the peaceful shore
They fought for peace; for peace they fell.

They sleep in peace, and all is well.

The fields forget the battles fought,

The trenches wave in golden grain,

Shall we neglect the lessons taught?

And tear the wounds agape again?

Sweet Mother Nature, nurse the land,

And heal her wounds with gentle hand.

Lo, peace on earth! Lo, flock and fold!

Lo, rich abundance, fat increase,

And valleys clad in sheen of gold!

Oh, rise and sing a song of peace!

And Janus rests with rusted door.

DAYTONA AND ITS
ATTRACTIOMS.

DAYTONA is situated upon the west bank of the Halifax River at its fairest expanse and midway between its source at Bulow Bay and its outlet at Mosquito Inlet. It is in latitude 29°, seventy-four miles from St. Augustine and one mile from the Atlantic Ocean, and is acknowledged to be without a rival for beauty among the villages of the South. Its site is upon what is known as high hammock land that was crowned by nature with a most royal growth of majestic forest trees, and among these trees is the town of to-day, with its beautiful cottages and well-graded walks and streets. The result is that all along the wide avenues that intersect the town are lordly live and water oaks and hickories, many of them draped with graceful festoons of the gray Spanish moss, that overarch the street and walks, and among these are interspersed tall tropical palmettos, glossy-leaved magnolias, fragrant bay and coral-berried holly, and many other varieties, while in many places the wild grape, the trumpet vine and the amelopelos climb and cling among the branches forming shady bower and adding grace and beauty.

The town lies parallel with the Halifax River, and extends for nearly two miles along the shore. This river is the delight of the angler and the yachtsman and forms one of the town's greatest attractions.

The mica avenues that run parallel with or intersect the river are all 100 feet wide, except Beach street, which is about sixty-five feet, but has a half-mile of open, beautiful water abutting upon its eastern side, where the salt waves ebb and flow and along and across which comes the cooling, invigorating and health-giving breezes from off the wide Atlantic, which temper and render the Halifax climate one of the most perfect in the world. Daytona has many miles of well-graded, macadam and shell roads and streets, rendering it the

Wheelman's Paradise

and added to these, but a mile away, are thirty miles of smooth, hard beach, that affords an unrivaled course for long-distance cycling and driving or automobile racing. No town of equal size, North or South, numbers so many wheelmen, and cycling is a favorite pastime with the tourists summer and winter.

The Beautiful Cottages

that have been erected during the past years and are being built are rendering Daytona as famous for its fine homes as for its beautiful river, trees and avenues, and they are adding yearly to its attractions.

Not the least of these attractions to those securing homes in the South and ranking second only to healthfulness and perfection of climate, is the fact that its population is chiefly composed of cultivated and intelligent people, accustomed to the refinement of home and social life. Added to these features are good churches, good public and private schools, stores, hotels, laundry, meat markets, novelties, works, an opera house, electric light, good telephone system, ice factory, Lily Water Works, bat and cold baths, etc., and everything else can be procured that is necessary to make life comfortable. An important feature in the healthfulness of this town is the

Water Supply

which is derived from numerous flowing wells, of which there are probably 300 within the corporate limits. This flow is secured by boring wells to the depth of from 80 to 120 feet, passing through several strata of rock, and this depth assures purity from all surface contamination. The water is slightly impregnated with magnesia

the commissioners of Volusia, to secure their co-operation in extending their line of good road to the dividing line, and that when such co-operation is assured that a petition for the levying of a special tax to build this road be circulated in this road district, and we believe the tax payers will be willing to sign the same in order to perfect this great highway to the north, placing us in close touch with the most thriving city on the east coast between St. Augustine and Miami."—The Florida Star.

W. P. Arnold, of Jacksonville, is in Daytona on business.

Frank W. Pope, Jr., of Jacksonville, is in the city for a day or two.

J. R. Stowe, of Atlanta, is among the business visitors to the city.

W. D. Stark, traveling passenger agent of the Atlantic Coast Line, is in the city on business.

Capt. Fozard, of Port Orange, is building for J. H. Barnes, of this city, a commodious launch.

The Daily News is striving to chronicle every local item, and this paper would appreciate it if friends of the paper would telephone or give items to our reporter. We want live local news and to this end we are working to record everything that transpires.

E. J. Mills has begun the construction of a thirty-five foot ferry boat, which he will equip with a 15-horsepower engine. He expects to launch the boat in about three weeks.

Shoes for the Whole Family.

Some people appear to think that it makes no particular difference where they buy shoes, that all shoe stores are about alike and that it's about the same thing everywhere. These people are laboring under a great hallucination of the mind, for there is fully as much difference in shoe stores as there is in the people who wear the shoes.

We've Shoes for Men, Women and Children, of certain styles and special makes that cannot be found in other stores, at near so low prices.

We have many styles in Black, Tan and Canvas, also Lawn Tennis.
